

ENVIRONMENTAL PROTECTION NOTICE

TAKE NOTICE THAT DP World Fraser Surrey Inc. of 11060 Elevator Road, Surrey, BC V3V 2R7 applies to the Metro Vancouver Regional District ("Metro Vancouver") pursuant to the Greater Vancouver Regional District Air Quality Management Bylaw 1082, 2008 for a Permit.

1. The purpose of this application is to request authorization to discharge air contaminants from a bulk material shipping facility located at 11060 Elevator Road, Surrey, BC V3V 2R7.

The facility handles Canola Meal Pellets (CMP) through a joint venture facility located in a shed of the DP World Fraser Surrey Terminal. The facility unloads CMP via a railcar belly dump. The CMP is either conveyed directly to the joint venture's ship loader system (direct hit) or unloaded and stored in a shed of the DP World Fraser Surrey Terminal prior to loading. The shed has 2 air handling units equipped with bag filters to minimize the release of dust or air emissions. DP World loads dry bulk copper concentrate directly from container to ship hold. Containers are unloaded within the vessel hold with water spray applied at the top of the hold to reduce fugitive emissions.

2. The legal description of the land or premises where the plant, operation or source and treatment works are or will be located is PID 023-512-547, Lot 4 LMP 29318.
3. The characteristics of the waste in specific terms including the content of potential pollution causing substances expressed in metric scientific units are as follows:
- a. Combustion processes: Primary fuel – N/A; Secondary fuel – N/A;
  - b. Maximum Opacity: 10 Percent;
  - c. Maximum total number of sources: 6
  - d. Maximum duration of discharge of air contaminants: 2190 hours/year
  - e. Authorization term requested: 10.8 years

4. The mass of material to be discharged, emitted or stored (per specific time period) is as follows:

Total Emissions from All Sources Based on Requested Limits and or Estimates\*

Contaminant	Emissions (tonnes/year)*
Coarse Particulate Matter	13.22
Copper**	0.015
Total	13.24

\*Detailed methods for calculating emissions are contained in the full application document.

\*\* Copper emissions are not included in the coarse particulate matter total.

This Notice is published pursuant to the *Environmental Management Act*, the Public Notification Regulation, and the Greater Vancouver Regional District Air Quality Management Bylaw 1082, 2008. A person who may be adversely affected by the granting or amending of the permit described in this notice may, within 30 days of its publication, notify Metro Vancouver's District Director in writing stating how that person is affected. When making a decision on the permit or approval application, the District Director will consider the application, comments submitted and any responses provided by the applicant. Information collected during the comment period and the time following until a decision on the permit application has been made is collected under the authority of the ***Freedom of Information and Protection of Privacy Act***. Your personal information and comment will be forwarded to the permit applicant for response to the District Director. By submitting a public comment, you consent to such disclosure.

**Please note that submissions in response to this notice may be made available to the public as part of the public record, subject to the provisions of the *Freedom of Information and Protection of Privacy Act*.**
