

## NORTHWEST LANGLEY WASTEWATER TREATMENT PROJECTS – FRASER RIVER CROSSING

FEBRUARY 2021

### Feedback Highlights

Thank you for taking the time to participate in our public comment period, held online from January 27 to February 10, 2021. With construction scheduled to begin in summer 2021, the intention of this engagement was to understand any concerns relating to this necessary sewer infrastructure project.

### What We Heard

Interest in creating a multi-use pathway to provide a walking and cycling connection between Hammond and Osprey Village in Pitt Meadows

Minimize construction impacts on traffic

Eliminate or reduce odour

Questions about construction methodology

Interest in noise and vibration

Questions about air quality and dust control
