

Hassall House

Built in 1917, historic Hassall House is a typical 1920s rural farm residence. The site was home to Glen Valley's first store, post office and wharf, which served as a riverboat stop for the route to Aldergrove. Closed to the public, Hassall House is currently rented and serves as a private residence. Please respect the tenant's privacy and stay behind the fence.

Tidal Flats Along the Fraser

Extensive freshwater tidal flats provide valuable habitat for a variety of wildlife including several fish species such as white sturgeon, migrating salmon and cutthroat trout.

The water level of the river here is affected by tides and river discharge. When the river is low (during fall and winter), the maximum tidal range is about one metre. Freshet (spring run-off), can raise the river as much as six meters.

Directions to the Park

This park lies along the Fraser River near the Langley/ Abbotsford border. Take the 264 Street exit from Highway 1, travel north to 88 Avenue and turn right.

At 272 Street, turn left and travel north to the Two-Bit Bar park entrance.
