

Green bins needed for a restaurant or food retail space

Metro Vancouver has estimated the number of bins needed for collecting food scraps and food-soiled paper, based on the size and type of your business. It assumes collection twice per week, and can serve as a guide to discuss with your collection service provider.

Business floor area m ²	ORGANICS – COLLECTION 2 TIMES PER WEEK			
	240 L totes		OR	3 yd bins
<100–300	1			
400–500	2			
600–700	3			
800–1000	4			
2000	9		1	
3000	13		2	
4000	17		3	
>5000	21		3	

Keep pests and odours to a minimum by ensuring your Green Bin is regularly emptied and cleaned.

Green bins needed for an office building

Metro Vancouver has estimated the number of bins needed for collecting food scraps and food-soiled paper, based on the size and type of your business. It assumes collection twice per week, and can serve as a guide to discuss with your collection service provider.

Business floor area m ²	ORGANICS – COLLECTION 2 TIMES PER WEEK			
	240 L totes		OR	3 yd bins
<100–300	1			
400–500	2	 		
600–700	3	  		
800–1000	4	   		
2000	8	       	1	
3000	12	          	2	 
4000	16	              	3	  
>5000	20	                  	3	  

Keep pests and odours to a minimum by ensuring your Green Bin is regularly emptied and cleaned.

Green bins needed for a large venue

Metro Vancouver has estimated the number of bins needed for collecting food scraps and food-soiled paper, based on the size and type of your business. It assumes collection twice per week, and can serve as a guide to discuss with your collection service provider. **Large venue** means a facility dedicated to cultural and recreational uses, conferences, or conventions that can accommodate 2000 or more visitors per day.

Business floor area m ²	ORGANICS – COLLECTION 2 TIMES PER WEEK			
	240 L totes		OR	3 yd bins
<100–300	1			
400–500	2			
600–700	3			
800–1000	4			
2000	8		1	
3000	12		2	
4000	16		3	
>5000	20		3	

Keep pests and odours to a minimum by ensuring your Green Bin is regularly emptied and cleaned.
