

**Before unloading any material, customer must complete this form and have this signed by a Recycling and Waste Centre employee.**

By completing and signing this form, the customer:

1. agrees that drywall with joint compound/mud containing asbestos poses a serious health risk to workers and that the disposal of such materials is prohibited at this Metro Vancouver Recycling and Waste Centre (operated by Emterra Environmental);
2. The customer declares that the material being disposed of at this facility is new drywall cut ends only (date stamped 1990 and newer) that has never been installed, mudded, painted, taped, or otherwise show signs of being previously used and does not contain asbestos; and,
3. agrees to accept liability for and indemnify Emterra Environmental and the Greater Vancouver Sewerage & Drainage District against all liability incurred by Emterra Environmental that may result from an incorrect declaration regarding the condition of the material.

Customers may refer to GVS&DD Bylaw No. 306, 2017 (Tipping Fee and Solid Waste Disposal Regulation) Clause 5.12, available at [metrovancover.org](http://metrovancover.org).

**Completed form must be returned to the Scale House by the customer before leaving the site.**
