

Solid Waste Management Plan Public/Technical Advisory Committee Bios

Director Sarah Kirby-Yung, Chair

Metro Vancouver Board Director Sarah Kirby-Yung is currently serving her second term on Vancouver City Council. Director Kirby-Yung is on the Metro Vancouver Board and is the Chair of the Zero Waste Committee. Director Kirby-Yung is also a National Zero Waste Council Board member, Liquid Waste Committee member, Pacific National Exhibition Chair, Vancouver Art Gallery Trustee, and Union of BC Municipalities Executive. Previously, she served as Commissioner and Chair of the Vancouver Park Board and her professional background is in marketing and communications, tourism, and hospitality.

Director Craig Hodge, Vice-Chair

Metro Vancouver Board Director Craig Hodge is a City of Coquitlam Councillor, a title he has held since 2011. Director Hodge serves on the Metro Vancouver Board, and is the Vice-Chair of the Zero Waste Committee. Director Hodge is also Chair of the National Zero Waste Council Management Board, and serves on the Metro Vancouver Regional Parks Committee and Water Committee.

Solid Waste Management Plan Public/Technical Advisory Committee Bios

Adelyn Chan

Currently, Adelyn is the Program Manager for Partnerships and Expansion Planning at Vancouver Food Runners, a food recovery organization that utilizes app technology and a network of volunteer drivers to redirect surplus food to nonprofit partners across

Metro Vancouver. In this role, she works closely with food businesses such as hotels, distributors, retail stores, farms, and bakeries to help combat food waste while supporting vulnerable communities. She holds a Bachelor of Arts in Sociology and has extensive prior experience in the social services field, including roles as a shelter and outreach worker and in supportive housing programs on Vancouver's Downtown Eastside (DTES).

Allen Lynch

Al Lynch has been a member of the Board of Directors for Urban Repurpose since 2017. He worked for over 30 years in the solid waste industry, 23 as the Manager of the North Shore Recycling Program (NSRP) in North Vancouver where he was responsible for planning

and administering all waste reduction, recycling and composting programs for the 3 North Shore municipalities. He also represented the municipalities on various Metro Vancouver committees and working groups. He has been on the Board of Directors of the BC and Yukon chapter of the Solid Waste Association of North America (SWANA) for over 25 years and is a Past President of SWANA International. He spent a number of years as a member of the National Zero Waste Council, served as a Director of the Recycling Council of BC and was chair of the Advisory Committee of Encorp Pacific.

Amika Watari

Amika has been fortunate to grow up, learn, work, and explore the outdoors in Metro Vancouver. With nearly a decade in the outdoor industry, she is currently working in community engagement; developing creative projects to promote sustainability, outdoor accessibility, and education at Mountain Equipment Company and Project Climbing Cloverdale.

Since 2022, Amika has been a voting member of the City of Langley's Environmental Sustainability Committee, contributing to event waste reduction, Earth Day planning, and a 30-year Urban Forest Management Strategy. She holds a BA in Policy Studies and English from Kwantlen Polytechnic University, and was a research assistant at KPU's Climate+ Challenge.

Focused on textile waste diversion, she has led initiatives with local businesses and organizations, including Langley Environmental Partners Society and Balancing Acts Community Project. Hosting repair clinics, upcycle contests, lost-and-found fundraising events, environmental restoration, and waste audits — creating opportunities for community climate action.

Solid Waste Management Plan Public/Technical Advisory Committee Bios

Bill Chan

Bill Chan has over 25 years of senior executive management experience with Encorp / Return-It, a leading BC product stewardship organization. He was involved in the start-up phase, and directed, managed and led a dynamic team to deliver a convenient, effective recycling

network of Return-It depots for beverage containers, consumer packaging, and end of life electronic products.

Bill sits on the Board of Directors of Vancity Credit Union, Canada's largest community-based credit union with over 560,000 members and \$33 billion in assets. He is the Chair of the Audit Committee and member of the Governance and Risk Committees. His formal education includes a Chartered Professional Accountant designation (CPA, CGA) and a MBA from Asia Pacific University. He has received the ICD.D (Institute of Corporate Directors designation).

Ben Liegey

Ben Liegey is a Food Waste Reduction Ambassador with more than 9 years of experience consulting organizations throughout the food supply chain. He has a food engineering background combined with an Executive MBA, and is always passionate about promoting

business sustainability through reducing food waste.

He is the Founder and CEO of Rethink2gether, a Vancouver-based consulting company helping commercial kitchens reduce food costs and improve their bottom line. Rethink2gether empowers hotels and restaurants with training, app technology to track food waste, and support to become certified against the third-party audited certification The PLEDGE™ on Food Waste. He has been a member of the Vancouver Food Policy Council in 2021–2022 and is also the Co-Producer of the Food Synergy Movie, a BC documentary about food waste solutions from farm to plate.

Brenda Martens

Brenda Martens has worked in the building industry for over 30 years as a practitioner, educator, and advocate in the field of regenerative building and circular economy. Brenda has a focus on materials and waste reduction and is a TRUE (Zero Waste) Advisor, and teaches courses

on building circularity at British Columbia Institute of Technology.

She has led the zero waste efforts for many events, including the Vancouver Mini Maker Faire and Light House socials, and has spoken about waste at Buildex, Coast Waste Management Association, and the Vancouver Zero Waste 'meet-ups'. In 2018 she was appointed to the Order of British Columbia for her contributions to sustainability in the building industry.

Brianne De Man

Brianne De Man has been working in the realm of environmental and economic justice since 2017, and has become a passionate advocate for the rights and voices of waste-pickers in Vancouver and globally. Brianne is currently the Director of EMBERS Eastside Works,

a low-barrier income generation hub located in Vancouver's Downtown Eastside.

In her previous experience working with Binners' Project, Brianne was responsible for advocacy initiatives that work to provide legitimacy and dignity to binners' (also known as waste-pickers) work, while ensuring their voices are included in policy discussions that impact them, such as Metro Vancouver's solid waste management plan. She received a Master of Public Health from the University of Victoria in 2016

Solid Waste Management Plan Public/Technical Advisory Committee Bios

Cassidy vander Ros:

Cassidy combines hands-on understanding with broad experience to tilt perspectives and bridge the gap between accessibility and circularity. She brings over a decade of experience in government relations, policy research and consulting, and

strategic engagement. Her diligence and tenacity have enabled her to engage in meaningful legislative opportunities to keep the communities she works in affordable, accessible and sustainable. Additionally, Cassidy acts as a subject matter expert on building code throughout Southern BC, as well as on innovative solutions to embodied carbon reduction, such as home relocation, at Provincial and Federal levels.

As a person with a disability and member of the LGBTQIA+ community, Cassidy is committed to using her unique skill set to help everyone participate fully in the communities they live in, and to create a safe space for decision makers to discuss challenges and seek further education.

Christoph Schultz:

Christoph Schultz is the Executive Director of the Recycling Council of British Columbia. A strategic leader with a strong background in sustainable development and organizational management, he has extensive experience in addressing global environmental and economic

challenges through innovative approaches and forming collaborative partnerships.

Before joining RCBC, Christoph led organizations advancing sustainable development. Notably, he served as the Executive Director of Light Up The World (LUTW), a non-profit organization focused on energy access, deploying solar home systems to remote communities in 17 countries.

Having lived and worked in seven countries, Christoph has firsthand experience with the challenges of effective waste management globally. These experiences deeply influenced him and shaped his commitment to sustainability, effective waste management and advancing a circular economy.

Christoph holds a Master's Degree in Development Economics and Policy from the University of Manchester and a Bachelor's Degree in Finance from the University of Calgary.

Cody Irwin

Cody Irwin has a strong connection and love for nature, as well as a powerful draw to technology and innovation. He was born on a remote farm in Manitoba and later raised in uptown Toronto. He went on to study Mechanical Engineering at McGill University and moved to

beautiful British Columbia after graduation.

For the last decade, he has called Vancouver home. There he started his first venture, Natural Source, offering corporate food services for technology companies. Over 10 years he grew this business into a local industry leader, until the pandemic closed offices and Natural Source's client base almost completely evaporated overnight. As devastating as this was, it proved to be an amazing opportunity. By repurposing his company's resources, he was able to build ShareWares with goals of eliminating single-use waste locally and worldwide.

Solid Waste Management Plan Public/Technical Advisory Committee Bios

Daniel Rotman

Daniel has an M.A. in Conflict Resolution and his mission is to engage in society's large, multi-party, cross-sector problems. This has brought him to the world of waste, where he now operates a consultancy at the crossroads of waste management and behaviour

change. He has experience working in waste audits, waste planning research, private recycling and Extended Producer Responsibility.

In the community, he has been co-facilitating and developing the Master Recycler Vancouver program since 2015, co-chairing the Society Promoting Environmental Conservation (SPEC) Waste Committee since 2017, and a multi-unit residential building waste committee most recently in 2020. Daniel is thankful to be able to live and play and work on this beautiful land and tries to live in a way to protect it for generations to come.

Daryl Foster:

Daryl Foster is an Advisor at The Condominium Homeowners Association of BC. Daryl has had a varied career beginning as a Red Seal qualified Automotive Service Technician and worked in fleet maintenance and facilities management. This interest in asset

management led to a career pivot and in 2012 Daryl became a licensed strata property manager at a prominent Vancouver Island management brokerage, and helped open and manage the regional office in Nanaimo settling there with his family. In February 2018 Daryl became the Lower Mainland Advisor for CHOA and has provided advisory services, meeting chairperson services, and helped deliver CHOA's education services to date.

Doug Schell

Doug Schell is currently the owner and principal consultant at EcoFirst Consulting. He is a seasoned sustainability professional with a strong track record in waste diversion, stakeholder education, and contract management.

With over 30 years' experience in the ever-evolving waste management sector, he specializes in helping industrial, commercial, and institutional sectors to meet regulatory requirements, improve diversion rates, and implement effective, practical waste management systems.

In collaboration with internal and external stakeholders, he has been part of the efforts to mitigate the effects of climate change through waste diversion, engagement, and education. Doug co-founded one of the first full-service recycling companies in Greater Vancouver and has worked with organizations to provide the tools that promote zero waste and continues to seek ways to reduce the barriers to recycling.

Gil Yaron:

Gil Yaron is Managing Director of Circular Innovation at Light House – a non-profit organization dedicated to advancing regenerative and circular practices in the built environment. He leads a dedicated team of professionals in advancing policy, research, practices and

technologies that help avoid and reduce construction, renovation and demolition waste. Gil has more than 20 years experience working in solid waste, extended producer responsibility, green building and circular economics. He is called on by local governments and industry across Canada to advise on the application of circular economics in the built environment. Gil holds a Bachelor of Laws and Master of Laws and most recently co-authored "[A Blueprint for Change: Preventing Demolition Waste Through Home Relocation and Deconstruction](#)".

Solid Waste Management Plan Public/Technical Advisory Committee Bios

Grant Hankins

Grant Hankins has spent his career in the waste, recycling, and environmental industry, while achieving an MBA in the United States, an undergraduate degree from Simon Fraser University, and a business diploma from Capilano University. While developing

recycling, organics, and deposit return-to-retail programs as well as food reclamation recovery systems for the Overwaitea Food Group in BC and Alberta, he started his contributions to the broader sector by being a member of the first GVRD solid waste management plan local and technical solid waste advisory committees.

After fully developing return-to-retail programs, and in-house waste diversion systems at the Overwaitea Food Group, he worked for Browning Ferris Industries (BFI) as plant manager for its materials recovery facility, progressing to Divisional Vice President. His career progressed to developing a first of its kind recycled glass optical sorting system for Environmental Technology. He then ventured into working for a large multinational company, Waste Management, as its Director of Operations for western Canada and northern California. He returned to Canada and was the General Manager for Progressive Waste/Waste Connections in the Lower Mainland. He now spends time investing in waste, recycling and environmental businesses, consulting within North America and is the Board Chair and President of the Waste Management Association of BC.

Jake Turek

Jake Turek is the Waste Management Engineer with the BC Ministry of Agriculture, and leads several files related to agricultural by-products, composting, and bioenergy. He was the Ministry lead for mortality disposal during the 2021 atmospheric river event, working

with key stakeholders to ensure farmers had the ability to dispose of mortalities in an environmentally sustainable manner. Jake has supported the development and update of disposal protocols and legislation, specifically the Code of Practice for Agricultural Environmental Management. Jake is interested in participating on the committee to ensure that agricultural waste management practices are represented, as necessary.

Jamie Kaminski

Jamie Kaminski is a Zero Waste Business Associate (ZWA, TRUE Advisor) and is President of HSR Zero Waste. He is a Board Member of Zero Waste Canada and of the Zero Waste International Alliance, and is Chair of the Zero Waste Definition working group and Zero

Waste Hierarchy working group.

Jamie's experience is in solid waste management from both a ground level and policymaking perspective. His area of expertise lies within international best practices in zero waste, and in respect to internationally accepted zero waste policies and programs. He works with fellow policy advisors to create strong, practical and enforceable policies that drive change towards zero waste. With over 27 years of active engagement in the waste and waste diversion industry working for HSR, Jamie has developed extensive experience in understanding how regional policies and bylaws affect the existing waste management system from the perspective of the service provider, the client, as well as the region as a whole.

Solid Waste Management Plan Public/Technical Advisory Committee Bios

Jaye-Jay Berggren

Jaye-Jay Berggren brings over 15 years' experience in the organic waste management industry. He is a founder and a former owner of Sea to Sky Soils, which has successfully processed Metro Vancouver organics since 2017. Jaye-Jay boasts the establishment of a local

circular economy model, which tied organic waste and compost to local food production and local food security.

He has successfully worked with numerous Indigenous communities over the last decade, and has a strong interest in fulfilling the commitments BC has made to Truth and Reconciliation, and the United Nations Declaration on the Rights of Indigenous Peoples. Jaye-Jay now continues to work towards educating others on the value of organic waste, and considers this an important resource for future generations.

Jennifer Henry

Biography pending.

John Doherty

John Doherty is the Facilities Manager at the New Westminster Campus of Douglas College overseeing several areas including catering, parking, and waste management. He is a Prosci® Certified Change Practitioner and has experience guiding groups

through large-scale projects.

John is committed to and passionate about finding new ways to achieve lower waste output. He serves as a member of the strata council at his place of residence and brings both commercial and residential viewpoints on solid waste to the table. He has a background in security, art, and graphic design.

Kevin Huang 黃儀軒

Kevin Huang (he/him) is the co-founder and executive director of hua foundation, an organization with the mission of strengthening the capacity among Asian diasporic youth, in solidarity with other communities, to challenge, change, and create systems for a more equitable and just future. His work has ranged from scaling culturally sensitive consumer-based conservation strategies through a project called Shark Truth, advancing municipal food policy to address inclusion and racial equity, to providing supports for youth from ethnocultural communities to reclaim their cultural identity on their own terms.

Kevin serves on committees with Vancity Credit Union, Vancouver Foundation, and the City of Vancouver; he is also on the board of two charities. Kevin's public policy experience includes managing hua foundation's work with the City of Vancouver on the single-use item reduction strategy where he oversees multi-lingual and culturally resonant stakeholder engagement and consultations.

Solid Waste Management Plan Public/Technical Advisory Committee Bios

Komal Fatima:

Komal works at the intersection of strategy and communications, helping organizations embed sustainability and circularity into their core operations. Her expertise lies in designing and executing campaigns and initiatives that transform how internal and external

stakeholders understand and act on environmental challenges. Through systems thinking, she uncovers practical solutions that create lasting environmental impact while building business value.

Moving from Karachi to Vancouver in 2017 to study at UBC, Komal brings her background in electrochemistry and family business experience to sustainability strategy. This unique combination shapes her approach to climate action, creating practical solutions that engage communities and deliver measurable results through stakeholder-led initiatives.

Lori Bryan

Solid Waste and Recycling Industry Advisory Committee
Elected Co-Chair.

Lori Bryan is the Executive Director of the Waste Management Association of BC (WMABC) and has helped guide the association

through a number of campaigns to ensure the private waste & recycling sector has a voice at government level discussions, to collaborate on solutions and maintaining an open and competitive market. Lori started in the waste sector by working for a small company in the 1990's, where she represented at WMABC meetings. She began raising a family in 1996, while continuing to be involved by working with independent companies and took on the ED position for the WMABC in 2010. Recently, she participated on the Emergency Management of BC (EMBC) committee, both for COVID-19 and the 2021 Flooding emergencies, providing guidance on waste & recycling issues to the Province. Lori was part of the working group that brought about the Metro Vancouver Solid Waste and Recycling Industry Advisory Committee and became a member to continue to work together on industry solutions.

Louise Schwarz

Co-owner of Recycling Alternative, Louise brings 30+ years of experience developing and delivering best practices waste reduction and recycling programs to the Industrial, Commercial, Institutional (ICI) sector. Her commitment to community

collaborations has led Recycling Alternative to partner with numerous groups, developing and supporting some of Vancouver's most innovative community diversion models including Vancouver Biodiesel Co-op, Food Scraps Drop Spots, Recycle in Strathcona, Zero Waste Events, and greenHUB co-location facility with community partner United We Can. Louise is currently working with local green innovators to create Vancouver's first Green Industrial Innovation District (the GrIIDTM), focusing on circular economy and inclusive, green employment.

Louise sits on the National Zero Waste Council's Management Board, Recycling Council of British Columbia's Board, Encorp's Community Advisory Committee, Share Reuse Repair Initiative's Steering Committee, Downtown Community Court's Advisory Council, and Urban Core's Executive Committee. She received the 'Woman of Distinction Award' in 2012, the Queen's Diamond Jubilee Medal in 2013, and City of Vancouver's Award of Excellence for Greenest City Leadership in 2014.

Solid Waste Management Plan Public/Technical Advisory Committee Bios

Marcelle Moreira dos Santos

Marcelle, also known as Mars, is a dreamer and a visionary committed to environmental justice and circular economy solutions. She co-founded Dreamstill Technologies Inc., developing AI-powered technology and community-driven solutions to tackle textile waste. Mars is also

a Regulatory Engagement Coordinator for Gitga'at First Nation, supporting regulatory processes and the preservation of indigenous rights.

Her previous experience includes farm waste emissions accounting, compost research, and advancing inclusive employment and consumer behavior change. Mars was one of the lead organizers for the Ecorise Climate Action Festival in Metro Vancouver, a near zero-waste event engaging youth-led climate solutions. Her work has been featured in the National Observer and CBC Radio-Canada.

Mars looks forward to contributing to the Metro Vancouver Solid Waste Management Advisory Committee.

Matthew Morin

Matthew Morin is a Cree/Metis descendant of the Morin family from Sandy Bay, Saskatchewan. He has been involved with Aboriginal Life In Vancouver Enhancement (ALIVE) Society since 2018 beginning as a Youth Leader on the Board of Directors and is currently serving

the role of Youth Facilitator for ALIVE Society's Truth and Reconciliation Project. Matthew was rewarded the Dwight Dory National Indigenous Youth Award by the Congress of Aboriginal Peoples in 2021. His areas of interest are in family advocacy and language revitalization.

Michael Zarbl

Michael Zarbl joined the Major Appliance Recycling Roundtable as the Executive Director in July 2017. Prior to that, Michael was the Director of Operations at Recycle BC (formerly MMBC) the Extended Producer Responsibility program for packaging and printed paper in British Columbia. Before joining Recycle BC, he was the Senior District Manager for Waste Management of Canada Company for four years, where he was responsible for the entire operation of the Vancouver Hauling District.

Prior to that, Michael held various private sector positions at major corporations such as Director of Operations with Ryder Container Terminals, a large export/import and distribution facility for Canadian manufacturers and major Canadian retailers, Distribution Centre Manager for Martin Brower of Canada (distributor for McDonald's Restaurants of Canada), and with Coca-Cola Bottling Co. He has an extensive supply chain management background with direct experience in the key activities along the supply chain, culminating in direct waste management industry experience. Michael has a BA from Concordia University in Montreal and is fluent in both English and French.

Solid Waste Management Plan Public/Technical Advisory Committee Bios

Raman Johal

Raman Johal is the Sustainability Specialist at London Drugs. Born and raised in London, England, he moved to Vancouver in 2009. He graduated from the Sauder School of Business at UBC with a Bachelor's Degree in Commerce and a concentration in Sustainability. He also worked for the

Sustainability and Ethics group at Sauder as a research assistant, helping them expand their sustainability education.

A firm believer in responsible business and the ability for business to be a force for good, he now works for London Drugs, managing their comprehensive Green Deal program. This includes their extensive return-to-retail recycling program, where customers can bring back many of the products they purchase to be responsibly recycled. The Green Deal program has four pillars in total: upstream purchasing, energy and operations, waste minimisation, and communication and education.

Sarah Scanlan

Sarah is a regional sustainability consultant with the Energy and Environmental Sustainability team, collaborating with healthcare organizations across Vancouver's Lower Mainland (Vancouver Coastal Health, Fraser Health Authority, Provincial Health Services Authority

and Providence Healthcare). She specializes in materials management, focusing on waste reduction and circular healthcare initiatives, including transitioning from single-use items to reusable alternatives. Sarah develops policies, guidelines, and resources to support appropriate waste management and promote the use of sustainable, low-toxic materials in healthcare facilities.

As a member of the provincial Waste Management Technical Services Team, Sarah advocates for the standardization of waste management auditing, reporting, and metrics across health organizations in British Columbia.

Sarah is committed to ensuring that the healthcare sector plays a proactive role in environmental sustainability and is actively engaged in discussions and initiatives to drive meaningful change in the industry.

Sean Miles

As the Director of Binners' Project, Sean has over 15 years of experience working in equity-serving organizations. Along the way he has gained valuable insight into managing a social enterprise through his work at Starworks Packaging & Assembly and has spent

time working in the DTES as the manager of the East Hastings WorkBC office.

Sean is passionate about waste systems and making our Extend Producer Responsibility systems equitable for all. Through his work with Binners' Project, he has seen firsthand the positive impact that binners can have on our environment and strives to see them legitimized as valuable participants in the circular economy. Sean is a firm believer in working from a trauma-informed lens and is deeply committed to the important work of actualizing truth and reconciliation.

Sean completed his BA in Psychology at the University of Victoria and a post-bachelor diploma in Psycho-Social Rehabilitation at Douglas College.

Solid Waste Management Plan Public/Technical Advisory Committee Bios

Stephanie Voysey

Stephanie is a Professional Engineer and Qualified Environmental Professional with over 18 years of experience in the sustainability and environmental management sector. She graduated from the University of British Columbia with a Bachelor in Applied Science in Chemical Engineering.

As the Head of Sustainability and Environment at Lafarge Canada, Stephanie is responsible for overseeing Lafarge's sustainability initiatives, which includes greenhouse gas reduction, nature and biodiversity and circular economy, and ensuring that all sites operate to minimize their impact on the surrounding environment. She works closely with stakeholders across the organization to develop and implement cutting-edge sustainability programs and initiatives that drive real change.

Sue Maxwell

Sue Maxwell is the chair of Zero Waste BC, a non-profit organization working to drive systemic change towards zero waste in BC. She is also a consultant for Ecoinspire, which for fifteen years has focused on sustainability and zero waste planning, working with governments,

Extended Producer Responsibility programs, and businesses.

Sue has been a councillor in Whistler and an active volunteer for waste reduction and community planning. She has volunteered with the Climate Caucus (Co-Chair of the Zero Waste/Circular Economy Working Group), Whistler Zero Waste Committee, Squamish-Lillooet Regional District Solid Waste Management Plan Monitoring Advisory Committee, the BC Intermunicipal Working Group on Zero Waste, Recycling Council of British Columbia Board and Policy Committee and others. She has a Master of Arts in Environment and Management from Royal Roads University and her thesis was on zero waste.

Tara Immell

Tara Immell is a university lecturer focused on financial and environmental risk management who also consults for an engineering firm in the field of solid waste management. Whether teaching or consulting, Tara is passionate about raising everyone's awareness of how

individual choices impact climate change. Tara's waste management expertise focuses on food and plastic waste. At Tetra Tech, she conducts waste audits, has written a technical roadmap on recycling plastics, and has supported US regulatory research to keep edible food out of landfills.

Tara is currently studying for a PhD at Simon Fraser University, where she has taught finance for over 20 years. She completed a Master of Agriculture degree focusing on the impact of food waste and has previous local food system experience as the general manager of the North Vancouver, West Vancouver, and Burnaby Artisan Farmers' Markets.

Ulwiana Mehta-Malhotra

Ulwiana Mehta-Malhotra is a student passionate about taking environmental action to positively impact the mindsets of her generation and better the earth. She has spearheaded initiatives to reduce waste, be it the unnecessary disposal of food, clothing, or

books, looking at how mindsets impact individual consumption and thus waste, and giving alternatives to throwing away items such as upcycling, passing on, or donating.

As a member of generation-Z, Ulwiana sees that she and her peers have the power as consumers to reduce waste, and must contribute to society's efforts to mitigate climate change so that they can live in a cleaner, greener world. She is an advocate of hopeful, solution-based thinking, and sees action through legislation as the antidote to anxiety. Ulwiana is looking forward to connecting her passion to policy to help Metro Vancouver reduce their solid waste.

Solid Waste Management Plan Public/Technical Advisory Committee Bios

William Selten

William Selten is an accomplished engineer with a mechanical engineering background. He has a solid background in the field of organic waste processing, specifically in processing more contaminated waste streams. He has been involved in multiple projects

from conception through to operations.

William has provided his expertise and services across the globe for various stakeholders including both public and private sectors on both new and existing organic waste processing facilities. He is passionate about improving the future of our planet by building renewable infrastructure in the waste to energy sector. Outside of work he tinkers around the house doing projects on his small acreage and attending to his animals in Whonnock, Maple Ridge, where he has lived with his family since 2019.
