

FEEDBACK HIGHLIGHTS

Central Park Water Main – Imperial Section

Thank you for participating!

Thank you for taking the time to learn about and provide your feedback on Metro Vancouver’s Central Park Water Main – Imperial Section. Your input is important to us and will be used to minimize construction impacts wherever possible.

As you may know, we conducted a public comment period for this project from July 21 to September 14, 2022 to hear from local residents and businesses how we can minimize project impacts to the community. As part of our engagement phase, we:

Conducted an online survey and received 217 responses

Held a virtual open house on September 8 and seven people attended the event

What Is This Project About?

Metro Vancouver is planning to construct a new water main in your neighbourhood to help ensure the continued delivery of clean, safe drinking water to the City of Burnaby and the City of New Westminster. The Imperial Section is approximately 3.5 kilometres long and will be located along Imperial Street, between Maywood Street and Telford Avenue, and Griffiths Avenue and Elwell Street.

What We Heard

Please find below a summary of what we heard from the local community during our public comment period:

Concerns and questions about traffic impacts such as delays, transit and cycling routes, and pedestrian pathways

Requests to ensure safety and accessibility for pedestrians and cyclists around the construction area

Requests to coordinate traffic plans with other projects in the area to ensure traffic flows as efficiently as possible

Requests to receive advance notice of project impacts, especially cycling and pedestrian detours

Interest in how traffic plans will impact access to schools, businesses, and homes

Concerns over duration of noise impacts, especially at the valve chamber locations

We will report back to share how we have incorporated your feedback as this project progresses. Stay tuned or visit our project website for up-to-date information!

If you have any questions or comments about the Central Park Water Main – Imperial Section, please contact our community liaison.
